TOP TIPS

FOR CRUISING ALASKA AFTER CLOTS

KETCHIKAN

Fill up your water bottle before your disembark the ship at all ports. Carry a backpack - bring rain gear, and a warm jacket or wrap - whatever you need for the day. Ketchikan is really small, so it might be a good day for an excursion.

SKAGWAY

Book a whale watching or wildlife tour - through the cruise line. This ensures you will be back to board the ship in time. Eat some salmon here!

JUNEAU

There is hospital and pharmacy in Juneau, near where the cruise ships docks if you need care or supplies. Visit Mendanahl Glacier/Tongas National Park. Take the afternoon and explore the local shops, within walking distance of the ship.

DAYS AT SEA

Take a walk around the deck daily: Dress in layers and wear good shoes. It can be cold, wet and slippery on the decks. Make sure you take time to rest/relax too (read, visit the spa, enjoy the view).

GLACIER BAY

Be prepared for photographs with your phone or camera. Wear a hat/hood/scarf to keep water and wind out of your eyes.
